Site Assessment Framework for HOUSING¹

Site details	
Reference Number	ALP383
Site Name	Land at Bedford Road, Brogborough
Site Address	Land at Bedford Road, Brogborough
Settlement	Brogborough
Size	Submitted Developable Area: 1.4ha Submitted Whole Site Area: 1.4ha Measured GIS Area: 1.4ha
Proposed Use	Residential
Any other information	

STAGE 1: SUITABILITY AND AVAILABILITY (EXCLUSIONARY STAGE)

This section will exclude any sites which do not pass the exclusionary suitability criteria and they will not be assessed further.

	GE 1A ASSESSMENT		
	stage of the assessment rules out sites that are too sma	ll or conf	lict with national policy designations.
	sional Site Capacity		
1	Is the site likely to accommodate less than 10 dwellings? Work out the number of new homes from site size using density of 30dph and exclude up to 40 % depending on site size of land for infrastructure and services, take into account topography or significant areas of undevelopable land. Site Size Gross to net ratio standards Up to 0.4 hectare 100% 0.4 to 2 hectares 80% 1 hectares or above 60% Note: for this calculation use the submitted Developable Area, or the area measured in GIS if this is smaller.	No	Number of proposed dwellings as per proforma: 35 Number of proposed dwellings as per CBC methodology: 33
Flood	Risk (All sites which reach Stage 2 will be subject to the	ne Seque	ntial Test)
2	Is more than 50% of the site located in Flood Zone 2 or 3?	No	The site is not located in Flood Zone 2 or 3.
3	Is more than 50% of the site at risk from surface water flooding?	No	The site is not at risk from surface water flooding.
Nationally significant designations (All sites which reach Stage 2 be subject to detailed assessment)			
4	Is more than 50% of the site covered by nationally significant designations? These are: Sites of Special Scientific Interest, National Nature Reserves, Scheduled Monuments, Registered Parks and Gardens.	No	No designations on site.
5	Is more than 50% of the site located within the Area of Outstanding Natural Beauty?	No	Not located within AONB
Does	the site continue to next stage?		Yes

¹ Employment sites and Gypsy and Traveller sites will be assessed using separate bespoke site assessment criteria.

STAGE 1B ASSESSMENT

This stage of the assessment rules out sites that are not well related to existing settlements but are of an insufficient size to be self contained. It also rules out sites which would cause coalescence of existing towns or villages. For the purposes of this assessment, a self-contained site is defined as a site which will provide 1,500 homes or more².

Relationship to Settlement

contained, is the site a logical extension to the settlement or are there any major physical constraints(for example A roads, rivers or railways) that separate it from the main settlement? Brogborough in that it extends the settlement to the west and acros Bedford Road. It is separated from the settlement by Bedford Road.	· tolut	ionomp to cottionion		
existing village or town and another existing village or town? If yes, then grade as Amber if the site would be able to provide appropriate buffers or green wedges to mitigate this, or Red if it would not be possible for appropriate buffers to be provided	6	contained, is the site a logical extension to the settlement or are there any major physical constraints(for example A roads, rivers or railways)	A	and is bordered by the A421 to the north. However there has been residential development on the
individual context of the site.	7	existing village or town and another existing village or town? If yes, then grade as Amber if the site would be able to provide appropriate buffers or green wedges to mitigate this, or Red if it would not be possible for appropriate buffers to be provided leaving a reasonable developable area based on the	G	No coalescence
Does the site continue to next stage?	Does	the site continue to next stage?		Yes

	GE 1C ASSESSMENT stage of the assessment rules out sites that are not able	to meet	their critical infrastructure needs ³ .
Critic	cal Infrastructure		
8	Can the site meet the critical infrastructure	Α	Further information is required.
	requirements that will enable delivery4?		·
Does	the site continue to next stage?		Yes

STAGE 1D ASSESSMENT

This stage of the assessment rules out sites that are not available. A site is considered available for development where there are no legal or ownership problems and the landowner has expressed an intention to develop the site.

Availability

Avail	ability		
9	What is the existing use of the site? Would the existing use limit the development potential?	G	The land is currently vacant/agricultural use.
10	Is the land controlled by a developer or land owner who has expressed an intention to develop the site?	G	All the landowners are intent on developing the site.
11	Are there any legal or ownership problems that could delay or prevent development? If Yes, then can these be issues be realistically	G	All the landowners are intent on developing the site.

² The figure of 1,500 homes has been taken from the Government Publication 'Locally-Led Garden Villages, Towns and Cities'. This defines the eligibility criteria for Garden Villages as standalone settlements of between 1,500 and 10,000 homes. (see https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/508205/Locally-led garden villages towns and cities.pdf)

³ Critical infrastructure is that which has been identified as infrastructure that must happen to enable physical development. These infrastructure items are often known as 'blockers' or 'showstoppers', and are most common in relation to transport and utilities infrastructure. Failure to provide these pieces of infrastructure could result in significant delays in the delivery of development.

⁴ This is an assessment based on the information known at this stage, a full assessment of infrastructure requirements will be undertaken before any sites are allocated.

	overcome?		
12	Does the site already have planning permission for	G	No planning permission
	the proposed use? If yes, then score as Red		
	because it's not eligible for allocation.		
Does	the site continue to next stage?		Yes

STAGE 1E ASSESSMENT

This section records the findings of the Strategic Green Belt Review and also provides a preliminary screening of sites to determine whether they <u>may</u> be capable of demonstrating Exceptional Circumstances. Any site in the Green Belt that is determined as suitable based on the high level SHLAA assessment would still have to demonstrate Exceptional Circumstances to considered for allocation in the Plan.

ı ıaıı.				
	Greenbelt			
13	Is the site located within the Green Belt?	No	Not within green belt	
14	If answer to question 13 is yes, then does the site lie within one of the parcels which have been identified in the Central Bedfordshire and Luton Green Belt Study as making only a relatively weak, weak, or no contribution? If yes, site progresses through to Stage 2.	Yes or No	Details	
15a	Does the site have all of the following merits that may outweigh the harm to the Green Belt and which may contribute to identification of exceptional circumstances? • Adjoining settlement has at least 3 of the following key local services - convenience shop, lower school, middle school, upper school, village hall, GP surgery, post office, library (use settlement audit) • Site makes a strong contribution to housing need (100 plus homes) within the Luton HMA • Site is in or directly adjacent to a settlement that has a mainline rail station or direct assess (junction) to the strategic road network (A road or motorway) Sites in Green Belt other than those covered by 14 and 15b that cannot meet these criteria, will not progress any further in this assessment of suitability.*	Yes or No	Details	
15b	Sites which have support from the local community as demonstrated through an allocation in an adopted or draft Neighbourhood Plan (that has been subject to Regulation 14 consultation) that do not meet the criteria in question 15a will automatically progress through this stage to be considered further at Stage 2.5	Yes	Details	
Does	the site continue to next stage?		Yes	

STAGE 2: SUITABILITY (DETAILED ASSESSMENT)

STAGE 2 ASSESSMENT

This stage further assesses the site's suitability using detailed desktop assessment. A red rating for any question does not mean that the site will be automatically excluded at this stage as the ratings across Stage 2A will be looked at as a whole using planning balance.

⁵ Draft Neighbourhood Plan allocations in Green Belt that are proposed after this site assessment phase has concluded, may still be considered for allocation.

Planr	ning History		
41	What is the sites planning history? (For example planning applications and submissions to previous Allocations Plans)		No previous planning history.
	y and Traveller Provision		
Does	the site continue to next stage?		No

STAGE 2 ASSESSMENT CONCLUSION

Is the site suitable for the proposed development?

The site is not considered for further assessment.

- There are no major constraints to development on the site in terms of designations.
- The site is located between the A421 and Bedford Road. Therefore highway noise is a concern for residential development on the site.
- In addition, there are landscape concerns with regards to developing the site due to the rising ground above the site.
- Although the site is not a logical extension to Brogborough there is already development on the northern side of Bedford Road.
- Brogborough is not considered a sustainable settlement as there are few facilities within the village and so the development would increase the pressure on facilities in adjoining villages.

4	Is more than 50% of the site covered by nationally significant designations? These are: Sites of Special Scientific Interest, National Nature Reserves, Scheduled Monuments, Registered Parks and Gardens.	No	No designations on site.			
5	Is more than 50% of the site located within the Area of Outstanding Natural Beauty?	No	Not located within AONB			
Does	the site continue to next stage?		Yes			

 $^{^{6}}$ Employment sites and Gypsy and Traveller sites will be assessed using separate bespoke site assessment criteria.

STAGE 1B ASSESSMENT

This stage of the assessment rules out sites that are not well related to existing settlements but are of an insufficient size to be self contained. It also rules out sites which would cause coalescence of existing towns or villages. For the purposes of this assessment, a self-contained site is defined as a site which will provide 1,500 homes or more⁷.

Relat	ions	hip 1	to S	ettle	ment	
	1					•

6	For sites that are not of a sufficient scale to be self- contained, is the site a logical extension to the settlement or are there any major physical constraints(for example A roads, rivers or railways) that separate it from the main settlement?	A	The site does form an extension to Brogborough in that it extends the settlement to the west and across Bedford Road. It is separated from the settlement by Bedford Road and is bordered by the A421 to the north. However there has been residential development on the western side of Bedford Road.
7	Does the site cause coalescence between an existing village or town and another existing village or town? If yes, then grade as Amber if the site would be able to provide appropriate buffers or green wedges to mitigate this, or Red if it would not be possible for appropriate buffers to be provided leaving a reasonable developable area based on the individual context of the site.	G	No coalescence
Does	the site continue to next stage?		Yes

	GE 1C ASSESSMENT stage of the assessment rules out sites that are not able	to meet	their critical infrastructure needs ⁸ .
Critic	cal Infrastructure		
8	Can the site meet the critical infrastructure	Α	Further information is required.
	requirements that will enable delivery9?		
Does	the site continue to next stage?		Yes

STAGE 1D ASSESSMENT

This stage of the assessment rules out sites that are not available. A site is considered available for development where there are no legal or ownership problems and the landowner has expressed an intention to develop the site. **Availahility**

Avaii	ability		
9	What is the existing use of the site?	G	The land is currently
	Would the existing use limit the development		vacant/agricultural use.
	potential?		
10	Is the land controlled by a developer or land owner	G	All the landowners are intent on
	who has expressed an intention to develop the site?		developing the site.
11	Are there any legal or ownership problems that could	G	All the landowners are intent on
	delay or prevent development?		developing the site.
	If Yes, then can these be issues be realistically		

The figure of 1,500 homes has been taken from the Government Publication 'Locally-Led Garden Villages, Towns and Cities'. This defines the eligibility criteria for Garden Villages as standalone settlements of between 1,500 and 10,000 homes. (see https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/508205/Locallyled garden villages towns and cities.pdf)

Critical infrastructure is that which has been identified as infrastructure that must happen to enable physical development. These infrastructure items are often known as 'blockers' or 'showstoppers', and are most common in relation to transport and utilities infrastructure. Failure to provide these pieces of infrastructure could result in significant delays in the delivery of development.

This is an assessment based on the information known at this stage, a full assessment of infrastructure requirements will be undertaken before any sites are allocated.

	overcome?		
12	Does the site already have planning permission for	G	No planning permission
	the proposed use? If yes, then score as Red		
	because it's not eligible for allocation.		
Does	the site continue to next stage?		Yes

STAGE 1E ASSESSMENT

This section records the findings of the Strategic Green Belt Review and also provides a preliminary screening of sites to determine whether they <u>may</u> be capable of demonstrating Exceptional Circumstances. Any site in the Green Belt that is determined as suitable based on the high level SHLAA assessment would still have to demonstrate Exceptional Circumstances to considered for allocation in the Plan.

ı ıaıı.			
Greer			
13	Is the site located within the Green Belt?	No	Not within green belt
14	If answer to question 13 is yes, then does the site lie within one of the parcels which have been identified in the Central Bedfordshire and Luton Green Belt Study as making only a relatively weak, weak, or no contribution? If yes, site progresses through to Stage 2.	Yes or No	Details
15a	Does the site have all of the following merits that may outweigh the harm to the Green Belt and which may contribute to identification of exceptional circumstances? • Adjoining settlement has at least 3 of the following key local services - convenience shop, lower school, middle school, upper school, village hall, GP surgery, post office, library (use settlement audit) • Site makes a strong contribution to housing need (100 plus homes) within the Luton HMA • Site is in or directly adjacent to a settlement that has a mainline rail station or direct assess (junction) to the strategic road network (A road or motorway) Sites in Green Belt other than those covered by 14 and 15b that cannot meet these criteria, will not progress any further in this assessment of suitability.*	Yes or No	Details
15b	Sites which have support from the local community as demonstrated through an allocation in an adopted or draft Neighbourhood Plan (that has been subject to Regulation 14 consultation) that do not meet the criteria in question 15a will automatically progress through this stage to be considered further at Stage 2.10	Yes	Details
Does	the site continue to next stage?		Yes
	•		

STAGE 2: SUITABILITY (DETAILED ASSESSMENT)

STAGE 2 ASSESSMENT

This stage further assesses the site's suitability using detailed desktop assessment. A red rating for any question does not mean that the site will be automatically excluded at this stage as the ratings across Stage 2A will be looked at as a whole using planning balance.

¹⁰ Draft Neighbourhood Plan allocations in Green Belt that are proposed after this site assessment phase has concluded, may still be considered for allocation.

	 50% or more in Grade 1, 2 or 3a (R) 				

STAGE 2 ASSESSMENT

This stage further assesses the site's suitability using comments from technical specialists. A red rating for any question does not mean that the site will be automatically excluded at this stage as the ratings across Stage 2B will be looked at as a whole using planning balance.

	Chara 2D will be leaked at as a whole wairs planning belongs

38	Ecological Assets What would the impacts of development be on any biological, geological or ecological assets and are there any opportunities for their enhancement?	G	Opportunity to enhance		
39	Open space/leisure and GI assets Are there any potential conflicts with open space, leisure designations or Rights of Way? Is there capacity to provide the required levels of open space and green infrastructure?	G/A	Within the Forest of Marston Vale, would need to deliver 30% woodland cover. No loss of LS open space. Direct impact on Adj Bedford Road Small Amenity Space		
Minerals and Waste					
40	What would the impacts of development be on safeguarded minerals and waste sites, including mineral safeguarding sites?	G	No issues		
Planning History					
41	What is the sites planning history? (For example planning applications and submissions to previous Allocations Plans)		No previous planning history.		
Gypsy and Traveller Provision					
Does the site continue to next stage?			No		

STAGE 2 ASSESSMENT CONCLUSION

Is the site suitable for the proposed development?

The site is not considered for further assessment.

- There are no major constraints to development on the site in terms of designations.
- The site is located between the A421 and Bedford Road. Therefore highway noise is a concern for residential development on the site.
- In addition, there are landscape concerns with regards to developing the site due to the rising ground above the site.
- Although the site is not a logical extension to Brogborough there is already development on the northern side of Bedford Road.
- Brogborough is not considered a sustainable settlement as there are few facilities within the village and so the development would increase the pressure on facilities in adjoining villages.
