Site Assessment Framework for HOUSING¹

Site details	
Reference Number	NLP092
Site Name	Land east of the High Street
Site Address	94 High Street, Wrestlingworth
Settlement	Wrestlingworth
Size	Submitted Developable Area: 2ha Submitted Whole Site Area: 2ha Measured GIS Area: 2.3
Proposed Use	Residential
Any other information	Application dismissed at appeal

STAGE 1 : SUITABILITY AND AVAILABILITY (EXCLUSIONARY STAGE)

This section will exclude any sites which do not pass the exclusionary suitability criteria and they will not be assessed further.

STAGE 1A ASSESSMENT

This stage of the assessment rules out sites that are too small or conflict with national policy designations.

Provisional Site Capacity

1	Is the site likely to accommodate less than 10 dwellings? Work out the number of new homes from site size using density of 30dph and exclude up to 40 % depending on site size of land for infrastructure and services, take into account topography or significant areas of undevelopable land. Site Size Gross to net ratio standards <ul style="list-style-type: none"> Up to 0.4 hectare 100% 0.4 to 2 hectares 80% 2 hectares or above 60% <i>Note: for this calculation use the submitted Developable Area, or the area measured in GIS if this is smaller.</i>	No	Number of proposed dwellings as per proforma:
			30
			Number of proposed dwellings as per CBC methodology:
			48

Flood Risk (All sites which reach Stage 2 will be subject to the Sequential Test)

2	Is more than 50% of the site located in Flood Zone 2 or 3?	No	Not located within Flood Zone 2 or 3.
3	Is more than 50% of the site at risk from surface water flooding?	No	Not at risk from surface water flooding.

Nationally significant designations (All sites which reach Stage 2 be subject to detailed assessment)

4	Is more than 50% of the site covered by nationally significant designations? These are: Sites of Special Scientific Interest, National Nature Reserves, Scheduled Monuments, Registered Parks and Gardens.	No	There are no nationally significant designations on site.
5	Is more than 50% of the site located within the Area of Outstanding Natural Beauty?	No	The site is not within the AONB.

Does the site continue to next stage?	Yes
---------------------------------------	-----

¹ Employment sites and Gypsy and Traveller sites will be assessed using separate bespoke site assessment criteria.

STAGE 1B ASSESSMENT

This stage of the assessment rules out sites that are not well related to existing settlements but are of an insufficient size to be self contained. It also rules out sites which would cause coalescence of existing towns or villages. For the purposes of this assessment, a self-contained site is defined as a site which will provide 1,500 homes or more².

Relationship to Settlement

6	For sites that are not of a sufficient scale to be self-contained, is the site a logical extension to the settlement or are there any major physical constraints (for example A roads, rivers or railways) that separate it from the main settlement?	A	The site could potentially form an extension to Wrestlingworth as it adjoins the settlement envelope to the north of the village. However, it would result in backland development.
7	Does the site cause coalescence between an existing village or town and another existing village or town? If yes, then grade as Amber if the site would be able to provide appropriate buffers or green wedges to mitigate this, or Red if it would not be possible for appropriate buffers to be provided leaving a reasonable developable area based on the individual context of the site.	G	The site does not result in any coalescence.
Does the site continue to next stage?			Yes

STAGE 1C ASSESSMENT

This stage of the assessment rules out sites that are not able to meet their critical infrastructure needs³.

Critical Infrastructure

8	Can the site meet the critical infrastructure requirements that will enable delivery ⁴ ?	G	Submitted form states that site can meet the critical infrastructure requirements.
Does the site continue to next stage?			Yes

STAGE 1D ASSESSMENT

This stage of the assessment rules out sites that are not available. A site is considered available for development where there are no legal or ownership problems and the landowner has expressed an intention to develop the site.

Availability

9	What is the existing use of the site? Would the existing use limit the development potential?	G	Greenfield
10	Is the land controlled by a developer or land owner who has expressed an intention to develop the site?	G	Land is controlled by a landowner intent on developing the site.
11	Are there any legal or ownership problems that could delay or prevent development? If Yes, then can these be issues be realistically overcome?	G	No known legal or ownership problems.
12	Does the site already have planning permission for	A	The site has recently been refused

² The figure of 1,500 homes has been taken from the Government Publication 'Locally-Led Garden Villages, Towns and Cities'. This defines the eligibility criteria for Garden Villages as standalone settlements of between 1,500 and 10,000 homes. (see https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/508205/Locally-led_garden_villages_towns_and_cities.pdf)

³ Critical infrastructure is that which has been identified as infrastructure that must happen to enable physical development. These infrastructure items are often known as 'blockers' or 'showstoppers', and are most common in relation to transport and utilities infrastructure. Failure to provide these pieces of infrastructure could result in significant delays in the delivery of development.

⁴ This is an assessment based on the information known at this stage, a full assessment of infrastructure requirements will be undertaken before any sites are allocated.

	the proposed use? If yes, then score as Red because it's not eligible for allocation.		for planning permission (CB/15/04887) and this has been dismissed on appeal.
Does the site continue to next stage?			Yes

STAGE 1E ASSESSMENT

This section records the findings of the Strategic Green Belt Review and also provides a preliminary screening of sites to determine whether they may be capable of demonstrating Exceptional Circumstances. Any site in the Green Belt that is determined as suitable based on the high level SHLAA assessment would still have to demonstrate Exceptional Circumstances to be considered for allocation in the Plan.

Greenbelt

13	Is the site located within the Green Belt?	No	Greenfield site beyond the Green Belt.
14	If answer to question 13 is yes, then does the site lie within one of the parcels which have been identified in the Central Bedfordshire and Luton Green Belt Study as making only a relatively weak, weak, or no contribution? If yes, site progresses through to Stage 2.	N/A	Not applicable
15a	Does the site have all of the following merits that may outweigh the harm to the Green Belt and which may contribute to identification of exceptional circumstances? <ul style="list-style-type: none"> • Adjoining settlement has at least 3 of the following key local services - convenience shop, lower school, middle school, upper school, village hall, GP surgery, post office, library (use settlement audit) • Site makes a strong contribution to housing need (100 plus homes) within the Luton HMA • Site is in or directly adjacent to a settlement that has a mainline rail station or direct access (junction) to the strategic road network (A road or motorway) <p>Sites in Green Belt other than those covered by 14 and 15b that cannot meet these criteria, will not progress any further in this assessment of suitability.*</p>	N/A	Not applicable
15b	Sites which have support from the local community as demonstrated through an allocation in an adopted or draft Neighbourhood Plan (that has been subject to Regulation 14 consultation) that do not meet the criteria in question 15a will automatically progress through this stage to be considered further at Stage 2. ⁵	N/A	Not applicable
Does the site continue to next stage?			Yes

STAGE 2 : SUITABILITY (DETAILED ASSESSMENT)

STAGE 2 ASSESSMENT

This stage further assesses the site's suitability using detailed desktop assessment. A red rating for any question does not mean that the site will be automatically excluded at this stage as the ratings across Stage 2A will be looked at as a whole using planning balance.

⁵ Draft Neighbourhood Plan allocations in Green Belt that are proposed after this site assessment phase has concluded, may still be considered for allocation.

Previously Developed Land			
16	Is the site Previously Developed Land in accordance with the NPPF definition? <ul style="list-style-type: none"> • 76% - 100% (G) • 26 - 75% (A) • 25% - 0% (Greenfield) (R) 	R	Greenfield
Community			
17	Neighbourhood Planning (only applicable in designated areas) Is the site identified as a housing allocation in an emerging Neighbourhood Plan?	Yes	Wrestlingworth is designated as a Neighbourhood Planning area. The Neighbourhood Plan has been submitted to the Council (Regulation 16).
18	Community Consultation Has any community consultation taken place? If yes, provide brief details on the form this consultation took and any overall community response.	Yes	Through the planning application which was refused.
19	Sustainability of Settlement Would this proposal impact on the sustainability of the settlement through the loss of services and facilities (for example, employment, retail, public house etc)	No	The proposal will not impact on the sustainability of the settlement.
Cumulative Impact			
20	Considering housing completions over the past 10 years, what has been the level of housing growth in the parish? <ul style="list-style-type: none"> • Less than 5% growth (G) • 5% to 20% growth (A) • More than 20% growth (R) <i>This is calculated by working out the total number of completions over the last ten years as a percentage of the dwellings in April 2006 (as calculated using census and completions data).</i>	G	Homes 2006 – 312 Homes 2016 – 324 Percentage increase 3.85%
21	What level of housing growth would there be if all the outstanding permissions (as of April 2016) were to be completed? <ul style="list-style-type: none"> • Less than 5% growth (G) • 5% to 20% growth (A) • More than 20% growth (R) <i>This is calculated by working out the total number of outstanding permissions as of April 1st 2016 as percentage of the total number of dwellings in April 2016 (as calculated using census and completions data).</i>	G	There is outstanding planning permission for 7 new homes, a 2.16% increase.
Physical Constraints			
22	Are there any physical constraints or permanent features that affect the site's developability? For example pylons, gas works, sewage treatment works, topography or wind turbines.	G	There are no physical constraints.
Relationship to Settlement			
23	Would development of the site be complementary to the existing settlement pattern, and would it have an adverse impact on any historic, unique or distinctive characteristics of the settlement's built or natural form?	A	The site would result in backland development.
Agricultural Land Quality			

24	<p>Would the development impact on high quality agricultural land?</p> <ul style="list-style-type: none"> • 50% or more in non-agricultural land (G) • 50% of more in Grade 3b, 4 or 5 (A) • 50% or more in Grade 1, 2 or 3a (R) 	A	Grade 3
----	---	---	---------

STAGE 2 ASSESSMENT

This stage further assesses the site's suitability using comments from technical specialists. A red rating for any question does not mean that the site will be automatically excluded at this stage as the ratings across Stage 2B will be looked at as a whole using planning balance.

Transport and Access to Services

25	<p>Facilities and services</p> <p>Question 26 considers the suitability and sustainability of the site for housing. It links to the Council's Settlement Hierarchy Audit.</p> <p>Issues relating to capacity are assessed separately</p>		
25a	<p>Does the settlement have a Primary/Lower school?</p> <ul style="list-style-type: none"> • Yes, in the settlement (G) • Yes, proposed as part of the development (G) • No, but an adjoining settlement does (A) • Not in the settlement or an adjoining settlement (R) 	G	Within settlement
25b	<p>Does the settlement have a Middle school (if applicable)?</p> <ul style="list-style-type: none"> • Yes, in the settlement (G) • Yes, proposed as part of the development (G) • No, but an adjoining settlement does (A) • Other catchment school available (A) 	A	Adjoining settlement
25c	<p>Does the settlement have a Secondary/ Upper school?</p> <ul style="list-style-type: none"> • Yes, in the settlement (G) • Yes, proposed as part of the development (G) • No, but an adjoining settlement does (A) • Other catchment school available (A) 	A	Adjoining settlement
25d	<p>Does the settlement have a GPs surgery or medical centre?</p> <ul style="list-style-type: none"> • Yes, in the settlement (G) • Yes, proposed as part of the development (G) • No, but an adjoining settlement does (A) • Not in the settlement or an adjoining settlement (R) 	A	Adjoining settlement
26	<p>What retail provision does the settlement offer?</p> <ul style="list-style-type: none"> • Town Centre/ Supermarket (G) • Convenience Store / Post Office / Newsagent (A) • None (R) 	R	None
27	<p>Distance to bus stops with a frequent service (at least hourly at peak times):</p> <ul style="list-style-type: none"> • Less than 400m (G) • 400m-800m (A) • Over 800m (R) • OR submission form stated that improved public transport facilities could be provided as part of the development (G) 	A	630m

28	Distance to nearest train station: <ul style="list-style-type: none"> • Less than 800m (G) • 800m-1200m (A) • Over 1200m (R) 	R	Over 1200m
29	Is the site accessible from the existing road network?	A	High Street, requires demolition of existing dwelling
School Capacity			
30	Do the local schools have capacity at all tiers?	R	Lower school site too small to accommodate further expansion – land or new site may be required.
31	If not, has a commitment been made to address this?	R	Land or new site may be required.
Water Utilities (Gas, Electricity and Broadband Infrastructure will be assessed at a later stage)			
32	Is there the capacity to provide all required infrastructure for waste water and potable water?	R/A/G	Water utilities companies have a statutory duty to supply water and waste water infrastructure to new development sites and a lack of available capacity does not prevent future development. Any infrastructure upgrades required will depend on the quantum and location of growth falling within each catchment area. Whilst the Stage 1 Water Cycle Study (April 2017) identifies the current capacity of existing water infrastructure, a Stage 2 study will be prepared to test the cumulative effect of sites that have been shortlisted for allocation in the Local Plan and identify the nature and timing of any upgrades required.
Drainage and Flooding (All sites subject to Sequential Test)			
33	What is the conclusion of the sequential approach to site allocations, in regards to flood risk? <ul style="list-style-type: none"> • No assessment required (G) • Consider Further Assessment (A) • Further Assessment Required (R) 	G	Site is at limited risk of surface water flooding, assessment is unlikely to be required.
Environmental Health			
34	Contamination Are there any contamination constraints on site and will there be any remediation required?	R/A/G	Awaiting comments
35	Adjoining uses Would any adjoining uses have the potential to cause conflict with the proposed use? (for example; noise and smell)	R/A/G	Awaiting comments
Environmental Constraints			
36	Landscape character What would the impacts of development be on the landscape character or setting of the area or any designated landscapes? Would there be any direct or indirect harm to the Area of Outstanding Natural Beauty or the Nature Improvement Area?	R	Site forms attractive rural edge to village and is crossed by long distance path. Trees and hedges important features.
37	Heritage/ Archaeology What would the impacts of development be on any	A	Site has archaeological potential but this would not prevent

	heritage assets and their setting? Are there any opportunities for enhancement of these assets?		allocation providing appropriate mitigation is undertaken.
38	Ecological Assets What would the impacts of development be on any biological, geological or ecological assets and are there any opportunities for their enhancement?	A	Rough grass with hedgerows, possible impact on farmland species, retain, buffer and enhance existing habitat features.
39	Open space/leisure and GI assets Are there any potential conflicts with open space, leisure designations or Rights of Way? Is there capacity to provide the required levels of open space and green infrastructure?	R	Parish GI plan identifies aspiration to create new community green space across this site, and to upgrade the existing permissive path to ROW status.
Minerals and Waste			
40	What would the impacts of development be on safeguarded minerals and waste sites, including mineral safeguarding sites?	G	No issues
Planning History			
41	What is the sites planning history? (For example planning applications and submissions to previous Allocations Plans)		Refusal and appeal dismissed for development on the site.
Does the site continue to next stage?			No

STAGE 2 ASSESSMENT CONCLUSION

Is the site suitable for the proposed development?

The site would have an adverse impact on settlement pattern and character due to back-land development; There would be adverse landscape implications as the site forms an attractive rural edge to the village and there are aspirations for GI in the GI plan.

Site Assessment Framework for HOUSING⁶

Site details	
Reference Number	NLP333
Site Name	Land at Potton Road
Site Address	Land at Potton Road, Wrestlingworth
Settlement	Wrestlingworth
Size	Submitted Developable Area: 1ha Submitted Whole Site Area: 1ha Measured GIS Area: 1.01ha
Proposed Use	Residential
Any other information	

STAGE 1 : SUITABILITY AND AVAILABILITY (EXCLUSIONARY STAGE)

This section will exclude any sites which do not pass the exclusionary suitability criteria and they will not be assessed further.

STAGE 1A ASSESSMENT

This stage of the assessment rules out sites that are too small or conflict with national policy designations.

Provisional Site Capacity

1	Is the site likely to accommodate less than 10 dwellings? Work out the number of new homes from site size using density of 30dph and exclude up to 40 % depending on site size of land for infrastructure and services, take into account topography or significant areas of undevelopable land. Site Size Gross to net ratio standards <ul style="list-style-type: none"> Up to 0.4 hectare 100% 0.4 to 2 hectares 80% 2 hectares or above 60% <i>Note: for this calculation use the submitted Developable Area, or the area measured in GIS if this is smaller.</i>	No	Number of proposed dwellings as per proforma: 16
			Number of proposed dwellings as per CBC methodology: 24

Flood Risk (All sites which reach Stage 2 will be subject to the Sequential Test)

2	Is more than 50% of the site located in Flood Zone 2 or 3?	No	Not located within Flood Zone 2 or 3.
3	Is more than 50% of the site at risk from surface water flooding?	Yes	More than 50% of the site is at risk of surface water flooding (1/100 year occurrence).

Nationally significant designations (All sites which reach Stage 2 be subject to detailed assessment)

4	Is more than 50% of the site covered by nationally significant designations? These are: Sites of Special Scientific Interest, National Nature Reserves, Scheduled Monuments, Registered Parks and Gardens.	No	There are no nationally significant designations on site.
5	Is more than 50% of the site located within the Area of Outstanding Natural Beauty?	No	The site is not within the AONB.
Does the site continue to next stage?			No

⁶ Employment sites and Gypsy and Traveller sites will be assessed using separate bespoke site assessment criteria.

**Central
Bedfordshire**

A great place to live and work
